

Optiguard™ Touch

YOU TOUCH WE PROTECT

HIGH PERFORMANCE COATING FOR ALL YOUR DISPLAYS

Optiguard™ Touch: The **FIRST** surface enhancement treatment with **ALL** performance benefits. Developed by the Team at Panel Graphic, **Optiguard™ Touch** provides the ideal solution for all parts used in High Touch Point (HTP) areas.

Optiguard™ Touch combines versatility with optimum performance across a broad range of applications such as Facias, Touch Displays, Controls, Soft Buttons and beyond.

You Touch - We Protect...

› ANTI-MICROBIAL

Reduce bioburden and cross contamination with permanent infection control.

› CHEMICAL RESISTANT

Protects against corrosion and wear from heat, moisture, pH, and electrochemical potentials.

› ABRASION RESISTANT

Protection of substrates in any harsh, high-frequency contact environment.

› EASY TO CLEAN

To aid fingerprint and infection control. Exceptionally easy to clean without harsh chemicals.

› HYDROPHOBIC

Superb hydrophobic properties also protect against grease and lipids.

› ANTI-STATIC

For applications requiring static charge prevention or dissipation while maintaining optical clarity.
